

**For 2021 Season Only, Change in Rule Allowing a Player to Be Cut Without a Salary Cap Penalty**

MarkB, Tuesday 04 May 2021 - 18:22:40

The current rule is:

13.4 - Any veteran player whose contract has not expired must be protected or cut with a salary cap penalty unless they have a DUR rating (durability) is no more than 3 (i.e. is 3 or less) as noted in Rule 14.14b.

Because of inconsistencies with the Durability ratings of some players with only a few game being on a NFL team's active roster, **For the 2021 Season ONLY**, Rule 13.4 will be amended to say:

13.4 - Any veteran player whose contract has not expired must be protected or cut with a salary cap penalty unless they have **played in 3 games or less (based on the number of games played as listed on the player's stats/rating page in the game)**.

Please make note of this for the annual Roster Cut Down Week which begins May 23rd.
