This message constitutes each team's WARNING per rule 4.6:

4.6 - Teams which do not comply with Rule 4 roster requirements will be given a warning and opportunity to correct their roster before being penalized \$500k per infraction applied to the current and next season's salary cap. If the League Office needs to act to bring a franchise into compliance, players will be assigned by alphabetical listing of free agents at the given position and players will be cut on the basis of the lowest salaried player and then by alphabetical order. Teams which make no reasonable attempt to comply with the roster requirements will risk expulsion from the league.
