

### **Game Update**

MarkB, Saturday 09 October 2021 - 09:36:43

I've noticed a couple of teams who had players injured, the game made them Inactive, and when they were healthy again, the game did not make them active. It was a bug before the 9-17-21 game update was supposed to fix, but did not. On Wednesday I complained to DK Sports. They sent me a new game update and wrote a game "update will be posted in a few days". It still has not been. So I've posted it in the League Files section. Please download it and copy it into your programs folder. Please understand there could also be a new update coming "in a few days" and it may not be the same, so you will need to download and copy that one as well.
